

## **Parsifal and Romance**

### **INTRODUCTION**

#### **Fools Fall In Love**

Life is too short to play silly games, falling in love is probably the greatest thing that you can do in your life, but it really must be true love and not infatuation if you want to get married. Parsifal on his quest for true love and romance is apparantly a never ending adventure. It is not as though he can fall in love and stabilize that one partner to make her his life long companion, he moves from place to place and obviously woman to woman in his search for the perfect damsel. You can't do that in this day and age, your partner must be the only one for you in your life. It is not about men and women, it is about a man taking one woman as his wife and he, her husband. Rowdy, crowded parties of lust and frivolity are a thing of the past and if you want to experience true love as God intended it to be then you must sacrifice yourself to just one partner and limit yourself to just that one spouse if marriage is going to last any time at all. No adultery, not drunken orgies, it is said that only fools fall in love, but in the world where God lives, a perfect relationship is the marriage of one man and one woman, not poligamy or homosexual relationships and lustful changing of the guard from time to another with any woman in any lustful self indulgent way that you might feel that you are allowed to do or priveleged to indulge in. Fools fall in love in lustful relationships, but if it is true love then it is a one on one relationship between a man and a woman forever and into eternity. Like the life that God designed in heaven for the working and creation of a family relationship. The anatomy of self is a dangerous field of worship and God created us to be in relationship with Him and each other, but in a marriage it must be specified and determined that it is only between a man and a woman. Let us now get on with the writing of the book of Parsifal and Romance and while knights of chivalry were lustful in their thinking, the real world of modern day society and family community must be seen as the right way and purpose of a marriage relationship with God at the head and the partners joined together in an eternal romantic relationship with each other for the common bond and cause of having children and bringing up a family in a right relationship with God. Church is a good place to do business with the loving relationship of God and family. A husband and wife raising their children in a Godly world for the betterment of society and the future of life on earth to come. Now for the challenge of writing a Godly book while featuring Parsifal's romantic side of exploration in life. Darel.

#### **CHAPTER 1 Feet First**

## 1 Leap Of Faith

Leap of faith,

The heart goes first;

Beating all the time,

Watching out for all the crime.

Leap of faith,

Best foot forward,

Watch where your going;

Head before heart.

Leap of faith,

Going to get married;

Romance in the process,

Lifelong commitment.

Leap of faith,

When two become one;

United together forever,

Both hearts beating as one.

Leap of faith,

Step in the right direction;

Not across the finish line yet,

You have to start somewhere.

Leap of faith,

Seems like the right thing to do;

Everything working out, happening true,

Watchout for the cliff and end times to.

Signed,

Take a breath.

## **2 Foot And Feet**

Foot and feet,

First thing first,

Your in like Flynn,

Start at the beginning.

Foot and feet,

St Peters mouth disease;

Think before you act,

Jesus reigns forever.

Foot and feet,

One step at a time;

Followed by a deep breath,

It pays to know where you stand.

Foot and feet,

Understand the truth;

Both sox and shoes on,

Still tying up the laces.

Foot and feet,

Face and faith;

One becomes two,

Going a bit further ahead.

Foot and feet,

Thank God for eating;

I can get what I want,

Serve yourself in heaven.

Signed,

Why wait.

### **3 Steps and Breaths**

Steps and breaths,

Walking anywhere I want to go;

Like driving to get there,

Breathing is really the best essentially.

Steps and breaths,

Learning to go the distance;

Steering in different directions,

Aimlessly walking in digression.

Steps and breaths,

One foot in front of the other;

Breathng all the time forever,

Good night and sleep tight.

Steps and breaths,

Running like the wind;

Good to get where you are going,

Heart beating and all the eating.

Steps and breaths,

Good to know that you are alive;

Like sheep and cattle on the drive,

Countryside and beaches.

Steps and breaths,

Keep your head above water;

Learn not to get out of your depth,

Swimming not sinking feeling.

Signed,

My destination.

#### **4 Sucked In**

Sucked in, breathed out,

All the air is quite and effort;

1,000 mils each breath of air;

Fill your lungs with joy;

Knowing God is not a toy.

Sucked in, breathed out,

Chewed up, spat on;

Life suggests unfairness,

God is good forever.

Sucked in, breathed out,

Living up high on a hill;

Forget the idea of death,

God recovers from every breath.

Sucked in, breathed out,

How good it is to know your alive;

Especially when you learn how to give,

Without God, how could anyone survive?

Sucked in, breathed out,

Inhaling and exhaling;

The love of respiration,

Both lungs full of wind.

Sucked in, breathed out,

The lungs are full of air;

Kissing your partner endlessly,

The gift of living forever.

Signed,

Tongue in cheek.

## **5 You Before Me**

You before me,

Always put others first;

Partners serving each other,

The joy of living together.

You before me,

Living and dieing;

Age before beauty,

History and future.

You before me,

Consideration matters;

Surviving with money,

Time for togetherness.

You before me,

Life before death;

Get our prioities right,

Marriage between husband and wife.

You before me,

Just being kind hearted;

Getting the other person started,

Remembering courtesy matters.

You before me,

Maybe go climb a tree;

Leaders take advantage,

No nasty accidents now.

Signed,

Good to me.

## **6 I Think I Want**

I think I want,

I know you need;

It is nice to have,

There is what I have got.

I think I want,

A woman in bed;

I know I shouldn't,

Marriage is right.

I think I want,

The perfect partner;

If there ever was such a thing,

I must put my trust in God.

I think I want,

Things I can't have;

Self denial is healthy,

Don't trust in lust.

I think I want,

What God desires for me;

A loving relationship with Him,

Unity in spirit and truth.

I think I want,

Everything that is possible;

I must learn to pray for each idea,

For things in the right light.

Signed,

God knows what we need.

## **7 The Need For Passion**

The need for passion,

The desire for sweet love;

The romantic fool in me,

Waiting till the time is right.

The need for passion,

The cup and the last supper;

The passion of The Christ,

The beauty of knowing God.

The need for passion,

The joy of having sex;

In a marriage bed of love,

To create the ideal family.

The need for passion,

His and her love together;

Bound together by a certificate,

Happiness until death they do depart.

The need for passion,

The red clouds of heaven;

The sun smiling through the blue skies,

Water from the streams to drink.

The need for passion,

Working together for common good;

The picture of peace in perfect place,

The burning desire of love for God.

Signed,

Hard as hell.

Intwined and intermingled.

Brilliant Godliness,

Sharing time and money.

God bless each other,

Two falling in love,

Each a kind of a respect.

Signed,

Joined together.

Need to read;

The sick need pills,

God's healing, not making money.

Time to lead;

The right way in life,

Helping one another not hindering.

Greed kills,

Perception of pink;

Perfection of purple,

Green or blue and red.

Greed kills,

Grey skies above;

Thunder and lightning looming,

God is in control.

Greed kills,

Corruption and strife;

Murderers and jail,

Safety, not car accidents.

Greed kills,

Ridden with cancer;

The heart of pride,

More happiness and health.

Signed,

Don't be envious.

### **10 Fools Philosophy**

Fools philosophy,

More money than sense;

Time to study wisdom,

The truth of knowledge.

Fools philosophy,

Anything I want, I can have;

God requires prayer for everything,

Making ends meet inbetween.

Fools philosophy,

Head first in love;

Realling it is infatuation,

Trust in the true heart.

Fools philosophy,

Making maigic of millions;

Betting on the bank first,

Back to the centre of creation.

Fools philosophy,

There is no God really,

They trust only in themself,

No good in considering other people.

Fools philosophy,

I can do anything on my own,

No love to divide or cherish,

Weeding out the silly people.

Signed,

Worship the creator.

## **CHAPTER 2 Head and Shoulders**

### **11 Use Your Head**

Use Your head,

Love is not a condition;

Think things through first,

Priorities always matter.

Use Your head,

That is what it is there for;

Dust and cobwebs come without use,

Understand what is in your mind.

Use Your head,

Especially where women and are concerned;

People are not play things,

Wisdom and honour are important.

Use Your head,

Not just whats in your heart;

True love takes time to develop,

Work things out with God as well.

Use Your head,

Don't just jump headfirst into bed;

Marriage is an intelligent commitment,

Knowledge and understanding count.

Use Your head,

Work things through together;

Share the need and frustration,

God loves you and wants what is best for you.

Signed,

Forever in love.

## 12 Stand Tall

Don't sink but swim;

Looking down on others,

Don't frown but smile.

Hold your head high;

Don't be proud or arrogant,

Learn to love your neighbour.

Stand tall,

Look up not down,;

God is in heaven,

You are on eaerth.

Understand the seasons,

For God is the eternal creator.

Beauty is in the eye of the beholder;

Grace, mercy and love to you,

Face the faith of life.

Stand tall,

Partners aren't always perfect;

Pictures are worth a thousand words,

Show adoration and charm to each other.

Signed,

Best trusting.

### **13 Sit And Think**

Sit and think,

Take time to ponder;

Wonder anew each day,

Use the grey matter.

Sit and think,

Work things through first;

Your partner is not the worst,

Bounce things off each other.

Sit and think,

Take time out on your own;

Look at the beauty of creation,

The sun, the sea and sky.

Sit and think,

Brains are given free,

But must be used to work,

When you can't count on money.

Sit and think,

Its not a cash only society;

Pray for your daily bread,

Enjoy the gift of God's love.

Sit and think,

Why, what, where and how;

Who knows the way to truth,

Its good to ask questions.

Signed,

Peace of mind.

## **14 Write Anything**

Write anything,

Its not that hard,

Try and make sense,

Though different things cross your mind.

Write anything,

You have to start somewhere;

Now is a pretty good time,

Finish at the end of the line.

Write anything,

Cost, cause and commitment;

The price has to be paid,

You will be surprised at the results.

Write anything,

Just keep going down the page;

Words along the line in a row,

Head space for time and thought.

Write anything,

Work things out as you go;

Its all in what you know,

Knowledge down on a page.

Write anything,

Whether it is important or not;

Just what comes into your mind,

At least you gave it a go.

Signed,

Continuity.

## 15 Right And Wrong

Right and wrong,

Understanding the difference;

Working through the priorities,

Writing to live longer.

Right and wrong,

Stay on the side of the law,

Within the guidelines of the rules,

Its important to tell the truth.

Right and wrong,

Brighter and wrote;

Remember the rainy days,

Read the black and white.

Right and wrong,

The grey will be revealed;

You can't hide the truth,

Learning, loving and listening.

Right and wrong,

Get the picture of beauty;

Love wins in the end,

Health, happiness and peace.

Right and wrong,

The truth of light for life;

Sunshine shines in the darkness,

The greatness of God's answers.

Signed,

Plenty of questions.

## **16 Use The Brain In Your Head**

Use the brain in your head,

That God put in your head;

Learn how to lead and read,

Write what you like in life.

Use the brain in your head,

Differentiate the right and wrong;

Seek out the wisdom of others,

Intelligence quest or question?

Use the brain in your head,

Ask what you need to know;

Time to learn and grow,

Money seems like a good answer.

Use the brain in your head,

Prayer for food and clothes;

And a roof shelter over your head,

A bed to sleep in at night.

Use the brain in your head,

Save something for a rainy day;

Don't get caught out in the cold,

The sun shines brightest on others.

Use the brain in your head,

Serve those who are less fortunate;

Understand and acknowledge the truth,

Jesus Christ wins as all living proof.

Signed,

Time for God.

## **17 Your Eyes Are Bigger Than Your Stomache**

Your eyes are bigger than your stomache,

Food, glorious food;

You want to take all of it,

Self indulgence is a disgrace.

Your eyes are bigger than your stomach,

Thinking you can eat all that you want;

What about those who are poor and starving,

Show some consideration and kindness to others.

Your eyes are bigger than your stomach,

Why do you put more on your plate than you can eat?

It looks nice but you have to be realistic,

You can't eat more than you can fit inside you.

Your eyes are bigger than your stomach,

Are you hanging onto a bigger hope than is right;

You see all that food in your sight,

But sometimes you just have to say no.

Your eyes are bigger than your stomach,

Enough is enough in the scheme of things;

Contemplation and consideration the key;

Be thankful and glad for what you get.

Your eyes are bigger than your stomach,

Try and put God in the picture first;

Self indulgence is really a disgrace,

Deny yourself first and you will have treasures in heaven.

Signed,

Only what you need.

### **18 In Deep, Don't Lose It**

But preserve it while you can,

Try and hang on to the future.

In deep, don't lose it,

Keep that relationship going,

Divorce is a very sad ending,

Enjoy the peace of God forever.

In deep, don't lose it,

Love of God is the start of it;

At the very heart of it,

Keep it going as long as you can.

In deep, don't lose it,

Loss of life is very sad;

Hang onto it while you can,

In the end it all goes back to God.

In deep, don't lose it,

Though I love and need;

Others wants always come first,

Preserve and maintain history.

Signed,

Do it while you can.

Power and hower,

Don't let it get to your head,

Learn how to handle it,

Try and establish peace of mind.

Power and hower,

Leading and guiding God's way;

Things in perspective all the time,

Knowledge and things of learning.

Power and hower,

Season and a purpose.

Dodging an argument,

Its not worth attempting;

Not an answer to trouble,

Avoiding needless conflict.

Dodging an argument,

No sense in trying;

Sort out otherwise,

Finding restitution.

Unnecessary discussion;

Why things are depressing,

Unity is best thought.

Avoid fighting with me;

No point in argueing,

Keep your distance.

Don't tread on my toes,

It is hot enough as it is;

Not worth confronting,

Avoid unecessary hurts.

Don't tread on my toes,

You get under my feet;

Stay sitting on your seat,

So we don't feel the heat.

Don't tread on my toes,

You can do your own thing;

There is no room for two,

Right from under my nose.

Don't tread on my toes,

I will go ouch and sore;

You hit a roar bone and nerve,

What is unpleasant swerve.

Signed,

Steer away.

## 23 Both Want Their Own Way

Both want their own way,

We will never agree like this;

Better he has what is his,

And she what is only hers.

Both want their own way,

How can we possibly agree;

Different points of view,

Taken to the nth degree.

Both want their own way,

We will never get on like this;

Maybe we should give it the big miss,

Or forgive each other with a kiss.

Both want their own way,

No good going your own direction;

Try making a different selection,

Maybe there is room for correction.

Both want their own way,

How could things possibly work;

Just trying to find the right word,

Wheteher it is all really worth it.

Both want their own way,

Not really so like minded;

Looking hard trying to find it,

A solution to the real problem.

Signed,

Being consoled.

## **24 Have To Agree On Something**

Have to agree on something,

I can't always get my own way;

Seeing your point of view to,

So things can work out in the end.

Have to agree on something,

Like minds tend to agree;

Seeing what you have in common,

Understanding necessary differences.

Have to agree on something,

So it all works out in the end;

Being kind, loving and a friend,

When it is broken we can still mend.

Have to agree on something,

Helps each others understanding;

And to see things clearly together,

In all kinds of different weather.

Have to agree on something,

Love is probably the only solution;

## 26 Taking Too Many Chances

Taking too many chances,

Making different choices;

Odds are that you will lose,

You can't bet on things in life.

Taking too many chances,

Moving around to different circumstances;

Change is in the air and wind,

Choose wisely and make decisions.

Taking too many chances,

You have to learn by your mistakes;

Asking God what you can win in,

And things that you can create.

Taking too many chances,

Time is turning around every second;

Be certain of what you need in life,

You can't always count on money.

Taking too many chances,

He had many friends to help him out,

What a positive future endeavour.

Many hands make light work,

Trust in each others loving care,

Share the burden of doing things alone,

A city on a hill cannot be hidden.

Signed,

Working together.

## **29 Now It Is Time to Win**

Now it is time to win,

Only one bight at the cherry;

Make it count up first time,

No sense in being a loser.

Now it is time to win,

What has got under your skin?

Don't fall into unwanted sin,

Put your rubbish in the bin.

Now it is time to win,

Writing words along the line;

Going down the page in rhyme,

What will end up with in time?

Now it is time to win,

No good self abusing yourself;

When you have read all those books on the shelf,

It is not a place for fairies and elves.

Now it is time to win,

Put your trust in almighty God;

He is not rotten or something odd,

He really wants to show you a lot,

Now it is time to win,

You can't turn time backwards;

The future is under your control,

Make certain that you get it right.

Signed,

### **30 You Lost, Don't Lose Again**

You lost, don't lose again,

What are you actually gambling with?

Is it life or money or time?

Maybe your wife and family.

You lost, don't lose again,

When you are down, you have to get up;

No good being beaten and defeated,

You can't keep a good man down.

You lost, don't lose again,

What does it take to realize?

You keep throwing your life away,

There are many better alternatives.

You lost, don't lose again,

Drunk and drugged and sexually abused;

When you are down and out,

You simply have to get up again.

You lost, don't lose again,

Turn and give your life to Jesus;

God wants you for a friend,

Not a Devil and and enemy.
