

How do you love and lead me, do you ask straight out?

Telling me of God above and kingdom come not to doubt;

Do I say it with flowers or going out being taken for a meal,

Or simply tell you softly by touching you gently so you feel.

.

How do you love and lead me, do you ask me if it's right,

Do you hold me closely saying can I now switch off the light;

How do you love and lead me when everything goes wrong,

Do you just whistle quietly and sing me a lovely song.

.

How do you love and lead me, does your name go up in lights,

Or do you simply say it with beautiful things to sight at night;

Perhaps you want to make money and to love it is not right,

So you say you love and lead me, don't put up a hell of a fight.

.

How do you love and lead me with just a lovely kiss,

Would you let me die and live on so I really have to miss;

Do you really love and lead me do you have a special heart,

Are you showing kindness and goodness by being clever and smart.

.

How do you say you love me, do you lead and let me live.

Or do you want to get your own way with something I must give;

Is it all worth living and loving for you just to lead me,

To guide me on the path of love and let me to pay for free.

.

How do you love and lead me, will you trust me always,

Will you never till forever or love me just for a thousand days;

How do you love and lead me, for the truth and for each care,

For the brilliant mind of peace to live and lead to dare anywhere.

.

**Signed,**
