

The spirits flowing freely right through me,
My minds on the money and God's on me;
I am listening to the voices in me,
God is talking through His spirit.

The spirit of the mind is the spirit of God,
He talks to me through prayer and here's what's said;
The spirit is a life giving force of infinity,
That the mind can conceive and believe.

I hear what He says in voices in my mind,
Like the wind blowing through me, in the mind of my head,
The spirit is intelligent and wise, it is fair to be said,
That the peace and beauty of paradise is living in my head.

Words make sense when they come from God,
For love and grace and mercy are kindness.
We should live with love in our hearts,
And with God's peace in our heads,

I love The Lord who leads me all the day to win,
With the spirit of the mind like voices in the wind;
The glory of the heavens now fills my head,
As the victory of life is like the spirit in eternal realms.

The spirit of the wind can also be like hell,
Which corrects the sin to produce perfection;
Then leads the mind through the spirit of the wind,
To take me where the spirit is paradise and eternal grace.

Signed,

Talking in words
