

The fruit of heaven is a spiritual food like a bowl of fresh fruit,
That the sweet taste of life and joy of eating, you must go through it;
It is the paradise of the mind in peace, that the soul is richly rewarded,
It is the tropical paradise of heaven that the fruit of life endured it.

With bananas and apples, oranges and plums, peaches and a pineapple,
It is the delicious taste of life that fills the heart with pleasures;
Like a pineapple boat with cherries and strawberries with passionfruit in coconut milk,
An exotic delight of delicious paradise that enriches the soul and mind.

Guava and mango, paw paw and watermelon, cantaloupe and rockmelon,
Honey dew and nectarine, dragon fruit and kiwifruit, coconut and mandarin;
These are the tastes and the flavours of the fruit of heaven you dream,
That with sugar and ice cream they are ecstasy with cream.

Lycees and pears or sour lemons, limes and tangerines,
Dragonfruit and bittermelon, grapefruit, real life, not a dream;
These have a smooth bite to them and are refreshingly tingly,
That the best you can do with a selection of fruits is taste it all supremely.

The fruit of heaven which comprises of all the above,
Is a craving for sweet deliciousness and all full of love;
It is a slice of life right out of nature's own cupboard,
And is delectable and morish and good for your stomach.

So next time you take an island happy tropical cruise,
Remember all the fruits of life and eat in the paradise of heaven;
That a good selection of the prepared assortment of tropical fruits,
Is a delight to the pallet and the fruit of life in heaven.

Signed,

Island paradise
