

From one year to another or one year to the next,  
The world goes around the sun in context;  
Whether the weather is good or is bad,  
Whether the suns shining or theirs clouds and it's sad.

One revolution as it is commonly known,  
Is when the earth goes around the sun in a year on its own;  
Another is when there is change to be shown,  
So that the difference in revolution is one that was sown.

Two revolutions well what have we then,  
Are they something that I should put down in pen;  
The revolution we all talk about is that different again,  
Does that make two revolutions possible when.

One revolution to speak is the truth,  
Two revolutions their appears there's some proof;  
Three revolutions well the Earth's turning around,  
Four revolutions means that eternities found.

Signed

The Continual Revolution
