

### Parsifal Revolves and Turns

#### INTRODUCTION

#### RULES AND REIGNS

The rules of life are simple, follow the leadership of God and allow Him the eternal reigns of your lives. In a world where the wheels never stop going around and turning, where money revolves around nearly every aspect of the given situation. Life can become dull and boring in an unrelentless pursuit of material wealth. The eternal nature of God is one of love and understanding, with His compassion and caring for the hearts and minds in the souls of His people. Seeking first the kingdom of God and its treasures, gives you life and time on earth to pursue your desires and passions in a very real and natural way. Of course serving the God you love and the nearsighted understanding of His reciprocal relationship, is a true beauty in ideological certainty for your life. Fear is washed away and quashed, while truth rises and shines every day in your life. With time by your side you can work to your hearts content on all the wonderful things that God has given you to do. So it is with Parsifal Revolves and Turns, revolves and turns around God while God moves through His spirit and revolves and turns around the earth and cares for His people in His kingdom of heaven. You only have to sit down with a good book and turn the pages to see the changes and emerging story that unfolds as you read, let us hope that this new book, while it is on the internet for you to read, makes a real difference in your life. It is only a book of poetry after all, but what the hell, well as I have been called to write it, one idea that God has placed on my heart and mind to do and He will help me get through and He will help take some of the burden out of writing it for me. Creation is His genius after all and I have to allow Him to inspire my mind to write this book. Stay tuned and watch and wait as this unfolds, revolving and turning around the heart of God and all He can and has to do to help create this new book. Once again I hope that you are all up for the challenge of coming alongside with travelling mercies and that you can find the reflective interest, in what is still yet another book of poetry. This in my 32rd book of poetry, God bless it, in all its aspirations and desires to succeed. Stay around for Parsifal Revolves and Turns and you will be surprised what can actually happen with it and what will come out of it with God's help. It will be one of a really truly, a total amount of eternal worth. Darel.

#### CHAPTER 1 LOVE AND RAIN

## 1 Showering Mercy

Showering mercies, sent from heaven,

Rain upon a dry and barren land;

Great inspiration and perspiration,

Water the thirst of this waiting land.

Kingdom of God and love,

Send your blessing mightily upon us;

Reign your truth right into our hearts,

We are begging for quenching into our parts.

Showering mercies, troubled places,

Feed our souls and fill our faces;

With your hearts desire for us,

Answer all prayers from different races.

Showering mercies, Jesus our healer,

Healing souls and minds from fever;

Send your rains in rays of reign,

Give us a drink from springs of water.

Showering mercies, heavens flooding thoughts,

We give you thanks for God and sports;

Fish that swim in oceans and seas so vast,

Give us heavens treasures so as to last.

Showering mercies, the truth revealed,

You joy and love from being concealed;

The proof of love your love in showers to wet,

Prayers of grace and mercy we should not upon bet.

Signed,

Quenching thoughts.

## **2 Rays Of Sunlight**

Rays of sunlight through the rain,

Sunshowers pouring light through day;

Rays of sunlight, not always dry,

Love and mercies, blessings through the sky.

Rays of sunlight, depicting a picture,

Blessings and graces, dew with riches;

Shining warmth into our hearts,

People smiling, parts and smart.

Rays of sunlight to our minds,

Brilliant creation, kingdom of heaven;

Worth the ways and days of light,

Reigning truth in rays of might.

Rays of sunlight touch our skin,

Helping people see and win;

Don't get burnt, but rejoice in hope,

Love and faith, The Devil has to cope.

Rays of sunlight, truth within,

Warming hearts beneath our skin;

Rain and love for those who are thin,

Embedded in such riches to win.

Rays of sunlight, think we're blessed,

Sin and falsehood best confessed;

Two birds upon their woven nest,

God of heaven in is kingdom always best.

Signed,

Pure joy.

### **3 A Wet Old Day**

A wet and rainy day,

Old grey skies pouring rain;

Soft and gentle showers spill,

Falling from the heavens sky.

A wet old day,

Rainy and wet and miserable,

You have to look on the bright side of life,

The ground is grateful for a drink.

A wet and rainy day,

Water falling from the heavens;

Working waters way into the dirt,

Harder rock places do not hurt.

A wet old day,

Thankyou God for this gift;

Giving people a positive lift,

Thirst no longer and live.

A wet and rainy day,

Grey skies looking down at me;

Its great to be alive and free,

Enjoying the goodness of God from He.

A wet old day,

Wonderful weather really;

Great to see God blessing His people,

Prayers going up from a church steeple.

Signed,

Thankyou Lord.

#### 4 Greatful Farmers

Greatful farmers for a drink,

Water flowing down to fill the sink;

Water the crops and give a spell,

Farmers are happy with all things well.

Greatful farmers they sowed a seed,

God watered the land, what they need;

In due time and right season,

The crops grew up and are planted again.

Greatful farmers, looked to God,

Thanking Him in heaven above;

The rain falls down to water the ground,

Truth can be discovered and found.

Greatful farmers, respected in time,

Giving us food from the land of theirs;

Working hard to supply our needs,

God grants them peace from work they have done.

Greatful farmers, all is well,

Hope in heaven, dead in hell;

Seeds that fall and die, drop to the ground,

God multiplies and grows then up.

Grateful farmers, God waters their crop,

Not to flood and need a mop,

Just the right amount of rain,

At the right time for the seeds to grow.

Signed,

Growing up.

## **5 It Never Rains It Pours**

It never rains it pours,

Says one man to another;

I just give up on this rain sometimes,

It never seems to want to stop.

One day its raining cats ad dogs,

The nest day its as dry as a bone;

When it does not rain for a while,

Then down it comes pouring and teaming.

It never rains it pours,

Just when you want to go out;

It buckets down to make puddles again,

Wets the whole road when you are driving.

It never rains it pours,

That is what my father said to my mother;

When I want to go out and work in the garden,

I need my umbrella and raincoat and gumboots.

It never rains it pours,

God's love coming down to flood a nation;

In the deserts and out into the sea,

Watering a dry and thirsty baron land.

It never rains it pours,

While asleep like the old man snoring;

Dad use to always complain about the rain,

But mum was always glad for the garden.

Signed,

Sleep tight.

## **6 Thank God For A Drink**

Thank God for a drink,

When it rains and fills the dam;

All you alcoholics who are sick,

Learn to quench your thirst with water.

Thanks God for a drink,

When it is hot and sunny;

After you are dehydrated in the sun,

Thank God for a drink of water.

Thank God for a drink,

He reigns rain from His home in heaven;

Giving us what we all need in life,

Food, shelter and a good old fashioned drink of water.

Thank God for a drink,

Remember how grateful that you can be;

Thanking God in heaven as old as gold,

For all the beautiful things in life to drink.

Thank God for a drink,

Fruit juices, lemonade and Cocacola;

God is good and gives us all what we want,

He really knows what we need before we do.

Thank God for a drink,

When you are thirsty and starving hungry;

When He quenches your thirst for life,

Giving you the living water of Jesus Christ.

Signed,

Thirst quenched.

## **7 A Wet Blanket**

Party poopers fair to fail,

Crossing other peoples vale;

Dry and cosy, forget the drink,

Other people think you stink.

A wet blanket or stick in the mud,

Sapping other peoples blood;

Stuck in the mud or Noahs flood,

Watch out for other peoples love.

A wet blanket and dry argument,

Alcohol is simply not for everybody;

You can't force me to have a drink,

The water of life is a good think.

A wet blanket, well don't mind me,

I just happen to be one positively;

A desert duel or other possibilities,

The sword of the Lord and probabilities.

A wet blanket doesn't mean you don't have to try,

But it means other people want you to have a drink;

Go cold turkey and God will help you link,

A wet blanket will make you purple and pink.

Don't catch a cold and stay warm and dry,

Love never fails and sinners never win;

You don't have to be ignorant but still have a drink,

Not alcohol, but be sociable and teach others to think.

Signed,

Love being dry.

## **8 Love Never Fails**

Love never fails, we do,

We need to learn to rely on God;

God who is love never fails,

We must put our trust and faith in Him.

Love never fails, God loves us,

Coming down from His heavenly trails;

Filling our hearts with joy and love,

Compassionate understanding and discipline.

Love never fails, God is good,

Blessing us all with mercy forever;

Showering love into our hearts,

God is clever and so very smart.

Love never fails, I do believe,

Reassuringly knowing from Him I receive;

Enduring obedience to live and to know,

God's grace and goodness for me to grow.

Love never fails, I need to know and be sure,

Gratefully accepting that I can trust Him;

A country mile and hurtle or two;

Learning to take my time like a turtle,

Love never fails, God reassures me of that,

God holds us all safe in His arms,

Lovingly knowing I can't do it all by myself,

Even when I have read all those books on the shelf.

Signed,

Stand firm and tight.

One might choose to abdecate,

Forgoing their royal heritage;

Most sit on the thrown and relate,

To day to day things and events.

Reigning monarchs love riches,

Not fixing roads and ditches;

Royal dieticans and gourmet foods,

No wonder some of them put on weight.

Everyhting interesting and exquisite.

Reigning monarchs can be charming,

Blessing their subjects while containing;

Heavens treasures all still remaining,

Banquets, feasts and entertaining.

Reigning monarches hold on to the key,

Giving charity to those who do fail.

Happy as Larry, time on your side,

Perfect as it seems, its just that way;

Laughing all the way to the bank,

Christmas seems to come and last all year,

Doing whatever you want with your money;

Telling the teller how much you have got and want.

Laughing all the way to the bank,

More money than you can poke a stick at;

Enjoying the good life, but wait for it all,

God is looking down watching you indulge.

Laughing all the way to the bank,

Life just dishes things out that way;

Not really, it is very hard work,

Getting what you want, trying not to shirk.

## **FINAL WORD**

### **Eternal Life**

Eternal life is about abundant and an everlasting and rich life. Following Jesus is of course the only way to find and achieve eternal life, done by believing in Him and confessing your sins and putting your faith and trust in Him. There was nothing that you could do on your own, but by the grace of God in the saving blood of Christ, won on the cross, you became a free agent. Through the turning of the earth in space and each city on the planet playing its part in life to support life. It is not just about a money grabbing self centred ritual of greed. We have to learn to work together and support each others needs in times of adversity. Love The Lord you God with all your heart, strength, soul and mind and also your neighbour as yourself. These are the two greatest commandments of all. Technically love is the instrument that binds and unites these forces for us to nature, into a holistic and harmonious entity of superior lifestyle. God is love and eternal life is a benefit and source of that endeavour, giving us all and each, time to reflect on all the wonderful things of a God committment. Amidst the personal needs of all and each of us, is the need for relationship which is found in God and others. Eternal life is not simply a by product of our own lifestyle, but a knowledge of the saving grace of a God who cares for us. Come to

terms with reality and admit that you cannot do life all on your own, but eternal life is to be found and grasps in God sending His son to die for us. The beauty of it all, is that it is a free gift, paid in full by Jesus Christ through the love of God. He was the light of life, the keys to eternal life, the bread of life and the living water of life, all thrown into one basket, for us to accept and acknowledge in the saving love of God through the earthly work of Jesus Christ. Eternal life is still something that you have to choose to accept and take hold of on board in your earthly life, but it is far more than just that, it is living with God forever in His eternal realms of heaven and His kingdom of love. I hope that you have enjoyed Parsifal Turns and Revolves and that somehow you can put these things into perspective of how God's kingdom of heaven revolves and turns on and around earth in the realms of eternal life. God Bless. Darel McAllister.
