

Around and about the world and where will you find me,

Messing around and about with people having a cup of tea;

Around and about the earth and when I come back,

I'll be around and about nowhere heading down the track.

.

Around and about my head with a full head of hair,

Around and about the room and sitting on a chair;

Around and about seeking in the search for the lost,

I'll be around and about finding and discovering the cost.

.

Around and about everything there's money to be found,

Around and about living, keeping my head above the ground;

Around and about somewhere surely God must be seen,

I'll be around and about landscapes taking in the scene.

.

Around and about the table is a plate full of food,

Around and about eating and getting put in the mood;

Around and about cutlery, things to put in your mouth,

I'll be around and about eastwards, westwards, north and south.

.

Around and about in a motor car to know where you're going,

Around and about on the roads with the people you're showing;

Around and about the solar system like a satellite or rocket,

I'll be around and about ready to pay with money in my pocket.

.

Around and about something big bright and yellow,

Around and about sinning and an unhappy fellow;

Around and about winning and I find out the truth,

I'll be around and about learning, discovering the proof.

.

Signed,

In and Out.
