What's mine is mine and what's yours is yours,

The mind of the matter is what's mined in ores;

If keeping my mind on the money it goes elsewhere,

But with a selfish ambition it does not go anywhere.

.

It's good to develop a beautiful mind with respect,

Of all the pages you have read and what you reject;

Christ had a brilliant mind in the genius of the Bible,

And now you have to pick whether you able or liable.

.

It's not always possible to keep your mind on the job,

With motivation and love your heart will still throb;

It could be a case for the mind of life over death,

Where the weather can just overwhelm your breath.

.

With the mind it's a passion of making what you can,

In working or romance in accordance with the plan;

The mind is like a bubble which surrounds the brain,

In which it incorporates ideas like whether the rain.

.

I think I'd go crazy with the mind outside of me,

With the certainty of insanity and not being free;

I must remember requirements of my mind to others,

For the good of the family with fathers and mothers.

.

With two different minds there will be disagreement,

To argue the point of conflict for the discernment;

Really heaven and hell are in the heart of the mind,

Or you can go on to paradise where you can find kind.

.

**Signed,**

**I want to keep it.**
