

Such a beautiful thing that's ignored and neglected,

That all of the pain suffering sins could be perfected;

In the brilliance of the making of our wrongful deeds;

The sun would shine in darkness to satisfy our needs.

.

Forgiveness of your sins is the meaning of salvation,

That we could live in heaven for each eternal nation;

Christ would come again in the clouds as the Lord,

With riches and treasures being his heavenly reward.

.

Many of us go on dying in senseless shame or pride,

Instead of confessing hearts to the church his bride;

Try to believe that life would be better without wrong,

That you could live in abundance in a time that's long.

.

The cross is the victory for resurrections of the dead,

That one could live through it with God as the head;

In the knowing of a world that is still all to be unseen,

For creation of the earth is a beautiful heaven scene.

.

A sin hidden in the memory is always worth forgiving,

Remember money comes to those who are forgetting;

God will give the answers to cure the hurt in needing,

Love will fill your heart instead of hate being leading.

.

I hate to think how terrible its to be continuing in sin,

If the freedom of the word can let you live and win;

The message quite simple to those in death who die,

That the truth is in forgiveness and not to live the lie.
