

The promise of Parsifal is to keep the faith and love God,

To admire, respect and value the beauty in people and creation;

For the purpose of evolvment and advancement to greater reality,

Through the technological and systems improvement of a changing society.

This movement is a reflection on the reproductive management of family,

And looks toward the abolition and indiscrimination of alleviating famine;

Through the philanthropic contributions to fight the war of poetry,

It becomes clear to see the utopia and equality of fairness in people.

This beautiful yet unfulfilled dream of and ideal living world,

Where everyone has the freedom to be whoever they think their worth;

Is the ultimate reality of an equal society and reasonable trade,

That through work and cultivation of the mind the thought is a train.

The promise of Parsifal is to lead and guide offering wisdom life,

Of course acceptance or rejection is an option to the given reader;

But the behavior and attitude of decisions or accountable to all,

And the decision to follow or think of themselves is totally allowable.

However the repercussions of adverse thinking leads to wrong doing,

And the only true way to love God is by following and going;

This is the objective reality of eternal dimensions and living,

Which contributes to the improvement and magnification of happiness.

Therefore the promise of Parsifal is to try to lead the right direction,

That through truth and discipline one can be educated for life;

Then in turn with the qualifications and advancement of the mind,

One can search the path of righteousness and see what they need to find.

Signed,

Deep gratification
