

Why worry about worry when we are always worried,

It seems stupid to me to worry about being the worry;

When everything is right look on the bright side of life,

Because when you are worried you only worry about your wife.

Worry about worry I say it will drive you to your death,

As you try and relive and repeat every single breath;

Worry, why worry will it help you live better tomorrow,

Or are you just going to be silly and live all your life with sorrow.

Well to hell with the worry for I am not going to worry about that,

You can stick it up you're jumper and keep it under your hat;

Worry, why worry it will make you sick and tired of it all,

And give you an ulcer and then drive you right up the wall.

Why worry, why worry it only makes all your mind feel small,

When you're drinking for too much and you think your standing tall;

Worry, why worry you are that shamed to show your face,

Or do you cover it with your hands while you're faith needs grace.

So think about life a bit more and work it all out right,

For the answers in your head if you will use your brain to write;

For when you read and write you have the right to see the light,

But be very careful when you worry because sometimes it's too bright.

Now I told you not to worry and how to worry right,

Because the worry for the worry is to answer questions tight;

For the best of all the hurry was quick to eat at night,

And there's no sense wanting to worry about which worries white.

**Signed,**
