

You can't get enough of a good idea you know,

When all the words fall into place and it goes with the flow;

It is a good idea to write all of these things down,

So the lie will be told as the story goes off a gold town.

.

A good idea can be sold and bought for all of its worth,

Like the world goes around and where all spinning on earth;

For unless you want to get off and end this time of life,

Make sure you have a good idea of it and not end up in strife.

.

A good idea is hard to come by and might take a long time,

But the ability to create and distinguish all relates in rhyme;

Like the bright switch of the light globe and hot water to shower,

Enables us to see at night and keeps us all clean and in power.

.

It's a simple as ABC and only takes as long as 123,

A good idea comes along rarely and is as valuable as me;

For the point of the exercise is not to see who can make the most,

But who can contribute to humanity and the cause of the hot roast.

.

So a good idea is a variety that we want for ourselves all the time,

But the reality is that life changes and we constantly need our prime;

And the beauty of reason and logic is a blessing all in disguise,

For a good idea comes out of the trouble and goes on up to the skies.

.

Now if you've got your eye on heaven, will money be there when you die?

If you aim for the hills and take the pills is it a good idea for you and I?

And if I write what I like and have all the life I need on earth?

It is a good idea to know what it all was worth.

.

Signed,

When I Leave It.
