

In the name of the lord come back to me,
You've never really left me and you'll never leave me;
You always loved me and you always will,
Your truth and life come into my heart and fill.

In the name of the lord return to earth,
Be born again and return to your birth;
Come down from heaven and dwell in my heart,
Fill my life with glory and your kingdom will start.

In the name of the lord forgive my sins,
Bless me and love me and put your treasure within;
Turn your world in righteousness and travel and see,
The beauty and the majesty you redeemed us all to be.

In the name of the lord reign on high,
Take my hand with mercy and lead me to the sky;
Show my life with faithful of your water,
Quench the drought with laughter of your tears of thought.

In the name of the lord show us your graciousness,
Glory in your marvel and mountains of gratefulness;
Search the work and wonder time and out of space,
See me on the inside from in my rightful place.

In the name of the lord shine your light forever,
Turn the earth around me and lead eternal wealth;
Refine my soul and guide me to always be divine,
Teach me to be thankful until in my death resign.

Signed,

Live and Respect
