

Well this is the game that all people should play,  
It's what comes from God and it's here now to stay;  
Christ made it simple by, for the reason he died,  
That Christians might have life for our grace he has tired.

God gave man purpose and reason to live,  
So now for Jesus we all must give;  
It only takes faith and to believe in God's cause,  
Like butter will melt and is pure through a gauze.

Make your life simple and follow this man,  
For never was there an eternal or such divine things in plan;  
Jesus who is God will live with us all,  
As his spirit I reckon is on beckon and call.

Christianity is the one religion that still on earth,  
That chalks any points or has any worth;  
While our heads in the heavens over hearts are at bay,  
But suffer the torment for Christ is the way.
