

Imagine the possibilities of no problem on earth at all,
It wouldn't be right and everything we love would fall;
Therefore we need conflicts to reason and see what's wrong,
For there must be more to life than living on a song.

Man must be contribute and know God in his heart,
To make this life count for his duty and part;
I'm no song and dance routine but I know conflicts count,
And that the bank account just starts to amount.

Would I be mistaken to say all new some evil,
Or is that nice way to conflict the squashing of a weevil;
Now that this conflict is left out in the open,
Shall we all die or remain in our hope then.

So conflicts are great and we should all bow down,
Without losing our pride or going to town;
Thank you for this for without conflict I'm done,
But lost in transgression I still figure on none.
