Is it an apple I want to eat?
Is it an apple I already ate?
I asked for an apple and an apple I ate,
Now the apple I ate is becoming very great.

All I ask is an apple and a apple to eat,
An apple I ate that was very good to eat;
I can't have the apple that I already ate,
But I'll eat an apple till I'm up very late.

Any kind of apple is a good apple to eat,
Even an apple that drops down at your feet;
If an apple a day keeps the doctor away,
I'll eat a dozen apples and see what they say.

So if you want an apple that's an apple to eat,
Pray for it passionately so you heart will still beat;
And if that apple was so good to eat,
That apple you ate drops down from your seat.
