

Comfort and feeling, that sounds good to me,

Stars and atmosphere is that all I can be;

Sitting around a warm log fire sipping hot chocolate up late,

Friendly love and romance from that woman on your date.

.

Dinner in a restaurant followed by coffee till your bored,

Anything on the menu and perfect service your reward;

Cuddling up at night and kissing till the dawn,

The delight of the unexpected and keeping each other warm.

.

Atmosphere is a great thing provided by what's simple,

Like inhaling mountain air sends you high and left unsinful;

Then there's different fragrances worn and left lingering around,

And the smell of good clean earth after digging in the ground.

.

Then there's the atmosphere of home a sweet family love affair,

And the knowledge and joy in God at the church for those who care;

There's trees and lights at Christmas and carols by candlelight,

As well as those summer evenings with stars twinkling in the night.

.

There's walks along a river bank or beach if you prefer,

And those long and weary nights with a book in which you refer;

All these things give us atmosphere and the presence of the Lord,

And the treasure is in knowing there is no price for the reward.

.

Well the atmosphere is where my heart and head are now,

So I wonder where you'll find me or when or know just how;

For money doesn't mean a lot if there's no such thing as this,

Because the truth does really belong to God and where he is.

.

Signed,

Floating on air.
