

Godliness, how great would it be for it to really seem,

That we were floating on high and not lost in a dream;

It's about amazing facts and those wonderful truths,

That provide education to our young achieving youths.

.

Godliness is, and "yes" what a lovely thought,

Of God leading the way to go the way that we ought;

The Godliness of God still such a perfect thing,

Of freshness and quality and the life it will bring.

.

Godliness how magnificent what a joy to know,

Of peace and of love in the grace it does bestow;

Like the mountains of beauty and streams in their flow,

Godliness grants peace and allows our minds to grow.

.

Godliness has magic going beyond all compare,

A mystery or myth to those who will dare;

In times full of trouble all we need do is think,

Letting godliness change us to learn and to link.

.

Godliness so great as in all the earths might,

Gracious with hope to a place out of sight,

Now wisdom and knowledge all wither away,

But Godliness remains through night and through day.

.

Godliness so beautiful living on past all else,

Lovingly knowing that it is something past ourself;

Like the universe changes when it meets the earths sky,

Godliness is perfection to live on when we die.

.

Signed,

Unto God Forever
