

A walk or run along the beach and whether it's twice,

Dinner in a restaurant with nearly any season or spice;

Climbing up a mountain and watching a river go out to sea,

Living life in all its highlights and looking out to see.

.

The meaning of the kingdom is as simple as you and me,

Me and you knowing why, what and where money has to be;

When it is clear as day to many but hidden from a few,

And needs a kind of distinction for the difference to be true.

.

It comes in giving love and learning how to serve,

In helping other people and not finding their raw nerve;

The meaning of the kingdom is like fishing out of school,

When truancy is rebellion and is breaking every rule.

.

The meaning of the kingdom is learning of the God above,

And finding out what knowledge is an investment in his love;

It's a kind of intelligent decision to follow and do what's right,

To answer all the questions by what's true and in the light.

.

The meaning of the kingdom is like all our prayers to God,

As every breath of air is directed to reversing all the odd;

It goes without saying as we speak in peace of mind,

To solve all the problems of crime and to save the other kind.

.

The meaning of the kingdom is one of beauty and of love,

Like the spirit of the dolphin sees the people up above;

The kingdom is in the sky and the meaning in the heavens,

There is happiness on earth and paradise for all the sevens.

.

Signed,

Where is well.
