

Easier to read than to work so hard,

Better than digging in your own back yard;

Faster on earth than the speed of light,

Another impossibility but quite a possible plight.

.

Faster on earth than the speed of a car,

No man is capable of beating every single bar;

Faster on earth than its own turn of itself,

More men will worry about their own book shelf.

.

Faster on earth than a man eating a pie,

More women or water is a care to try or die;

Faster on earth than a train or a bullet,

Is superman likely to make room for a buffet?

.

Easier to lead than to talk or to organise,

More people to work than you need to supervise;

Faster on earth than the time of the day,

As in rotation you look to see night from the grey.

.

Faster on earth than every possible quest,

Better to ask questions than give it all a guess;

Faster on earth so is the food then a star,

As a plane flies over and around so far.

.

Faster on earth than Christ with the money,

Combing my hair as if to meet a new honey:

Faster on earth than a plane flying above,

I'm reading a book and leading the love.

.

**Signed ,**

**I'm finding a look.**
